

Video Appointments

You can attend your physiotherapy appointment online using an AccuRx video call. Please note video consultations are not recorded.

Video calling is confidential and convenient with the added value of face-to-face discussion and assessing movement.

What do I need to receive a video call?	Where do I put my camera?
 A good connection to the internet: if you can usually watch a video online, you can make a video call. 	 Put the camera on a stable surface so your head and shoulders are visible while talking.
 A phone, tablet or computer with a web-camera, speakers and microphone (these are often already 	 Have enough space in front of the camera so we can observe the body part to be examined if needed.
built into laptops and smartphones).	 Choose a private place where you won't be disturbed.
How much internet data will I use?	What to wear?
How much internet data will I use? • If you can, connect to a home or work Wi-Fi	 What to wear? Wear what you would normally wear for a face-to- face appointment in clinic.
 How much internet data will luse? If you can, connect to a home or work Wi-Fi Usage is around 5-8 Mb per minute (0.48 GB per hour), so please check your data allowance, as going over any data allowances can incur additional costs. 	 What to wear? Wear what you would normally wear for a face-to-face appointment in clinic. If you can, wear loose comfortable clothing that can be easily moved/rolled up. This will enable us to view the affected body part and see how much you can move.

How to join your video appointment

• You will receive a text message at your appointment time from

NHSNoReply containing a **link.** Please look out for this text and **click the link** to access your appointment.
